

Universal SEND Services

Universal SEND Services is an ambitious programme, funded until 2025 by the Department for Education (DfE) to develop the education workforce so that more children and young people have their needs identified and met effectively, resulting in successful learning in schools and further education (FE) settings, and leading to improved Preparation for Adulthood, including pathways to employment.

It is delivered by nasen, through the Whole School SEND consortium, in strategic partnership with the Education and Training Foundation, and the Autism Education Trust along with key delivery partners in the education community.

Much of our offer is suitable for professionals both in schools and in FE. We hope that people who use our services will start to think about how we can all work together for the benefit of our learners with SEND, from school to FE and beyond.
